

Aluminium Foil Embossing Rewinder Machine

Aluminium foil embossing rewinder machine is new trend of market demand for an embossing foil roll required.

This machine model is semi auto dual shaft rewinding with the automatic change.

The speed is at 600meter per minute,the unwind roll transmission at design of belt transmission,this can be much easier for operation and adjusting.

It is also multi-functional for 2 in 1 of aluminium foil,and cling film rewinding too. Machine is with Man-machine interface program for very easy operation.All setting and operation is at simple touch screen click only.

Main technical data:

Material:Aluminium foil/cling film

Master reel width:200/300/450/600mm

Master reel inner diameter:3/6inch

Master reel outer diameter:600mm max

Finished roll width:same to master reel

Finished roll inner diameter:32/35/38/40mm
