

Coreless Nonwoven Slitting Machine

Coreless nonwoven slitting machine is mainly used for slitting rewinding without paper core or small paper core small plate spunlace non-woven roll, PP non-woven roll, hot-rolled non-woven fabric, industrial dust-free paper, etc. The product of slitting and rewinding of the machine is roll shape. The machine can add perforation device during the process of slitting and rewinding.

Production Process:

Raw materials loading → Perforation → Slitting → Rewinding → Products

Features:

1. Both coreless and with paper core can slit
2. Tension adjustable
3. The distance of the dotted line can be adjusted

Technical Parameters:

Name: Coreless nonwoven slitting machine

Model: PPD-CNW1300

Raw material: 35-80g/m², spunlace non-woven fabrics, hot-rolled non-woven fabrics, industrial dust-free paper

Jumbo roll width:1300mm

Jumbo roll OD:1000mm

Jumbo roll paper core inner diameter :Φ 76.2mm (=3")

Finished roll width:max1300mm

Finished roll ID:20mm,25mm option

Finished roll OD:6000mm

Design speed:150m/min

Total power: 380V 50hz, 3.7 kw

Note:Any specifications can be customized.
